EDUCATION

University of Florida

B.S. Computer Science, College of Engineering; GPA 3.42

Graduation May, 2019

Code Path University

iOS for Engineers Development Course/Bootcamp

April, 2017

EXPERIENCE

Software Development Intern (Mobile/Web) - Agora

May - August 2017

- Built member point-system and push-notification subscription features for the iOS and Android mobile platforms.
- Worked on enhancements in user experience, application performance, and future ideas.

Programming Fundamentals Teaching Assistant - University of Florida

January - April 2017

- Held labs/office hours to better develop students in fundamental programming concepts.

C++/Java Programming Instructor - iD Tech

May - August 2016

- Instructed students in the C++/Java Programming Languages.
- Taught programming basics, including Object-Orientation and dynamic memory allocation.

PROJECTS

SGSenate iOS Application - UF Student Government

Spring 2017

- Developed iOS application for UF senate hearings in order to replace their 100% paper system.
- Functionality includes: displaying SG's agenda, bills, and miscellaneous items, a live queue for public debates, a voting system on concurrent bills, and admin features.

Langua - iOS Application

Spring 2017

- Language learning application that provides mentors, resources, and courses for learning clients.
- Includes: course registration | chat features with a live feed of who's online | Firebase by Google.

Reach & Relief - ShellHacks 2017 cohosted by Spotify

Fall 2017

- Developed iOS application that helps individuals prepare for upcoming disasters, seek immediate aid during the storm, and recover once the event has passed.

Chirpi - iOS Application

Spring 2017

- Developed clone of Twitter's iOS application using the Twitter API.

Fiestagram - iOS Application

Spring 2017

- Developed clone of Instagram's iOS application using the Parse open source backend.

Foodda - iOS Application

Spring 2017

- Developed clone of Yelp's iOS application using the Yelp API.

RELEVANT SKILLS

Programming Languages

Proficient in C++, Swift, Java; Familiar with Objective-C, SQL/PLSQL and Web-Dev. (HTML, CSS, JavaScript)

Frameworks & Other Technology

Xcode | Android Studio | Git | CocoaPods | Firebase | AFNetworking | OneSignal | Adobe CC: Animate, Illustrator

INTERESTS & INVOLVEMENT

UF Association for Computing Machinery

Acting Vice President of Professional Affairs |
iOS Mobile Development "Texpert"

Music & Languages

Guitar, bass, keyboard, & production/composition
Bilingual, English & Spanish
Conversant, Japanese & Korean

AWARDS

- National Top Student in Code Path University iOS
- College of Engineering Scholarship Recipient
- Organizer's Prize for Photag - SwampHacks 2016
- Fourth Place - UF Google Games Competition 2017
- Fourth Place for Reach & Relief - ShellHacks 2017
