## Summary Statement

Four years' experience in programming and computing. Five years' experience in tutoring/instructing and database design. Bilingual in English and Spanish, and well-informed in Japanese and Korean Language/Culture.

## Education

University of Florida, Gainesville, FL
        Computer Science, BS; 2019

Atlantic Technical College & Technical High School
        4.86 GPA; 2015

**COURSES**
        Programming Fundamentals 1 & 2; Discrete Structures
        SQL Database Design & PL/SQL Database Programming

## Experience

**PROGRAMMING LANGUAGES**
        Java, C++, Swift, Python, SQL & PL/SQL, C#

**C++/JAVA PROGRAMMING INSTRUCTOR - IDTECH CAMPS 2016**
        Instructed students in groups of 8 per week in the C++ or Java Programming Languages, ages ranging from thirteen to seventeen. Taught programming basics, including inputting/outputting to console, file handling, Object-Orientation, and GUI creation.

**PROJECT: PHOTAG – SWAMPHACKS 2016**
        Lead programmer of a team of 5. Developed intelligent photo organizational tool created with Java that integrated Clarifai's Visual Recognition API for a hackathon in the University of Florida – Received the Organizer's Prize

**PROJECT: BATTLE DATABSE - SUMMER 2016**
        Created a "Battle Database" Swift application, for iOS. Mechanics include inserting, updating, or deleting records for a variety of information. Integrated the Swift language with SQL through managing a SQLite database file with a model manager using FMDatabase as a resource.

## Involvement

        Member – University of Florida Association for Computing Machinery
